Reference: Letter of Recommendation / Chris Doyle / Doyle Systems, LLC

To Whom It May Concern:

I have had the privilege of working as a subcontractor to Chris Doyle since 1996 providing rigging and crane services to his projects. During this period we worked on some of the most challenging mechanical renovation projects in occupied facilities including several at the World Bank buildings, International Monetary Fund, National Press Club, National Geographic's HQ buildings, IRS HQ building, and many others. What I have always enjoyed in working with Chris is his spirit of team work, mutual respect, and the ability to communicate highly detailed information clearly and in a timely manner. These attributes and particularly his fairness and conflict management skills have really helped to ensure that large and diverse teams of subcontractors can deliver on projects in a timely manner and with the highest standards.

We just completed yet another very successful and difficult installation project at the World Bank of Doyle Systems which helped me reinforce my belief about his company and their values.

Sincerely,

Michael F. Parker
Managing Member
